

## **MAKING A WILL**

Making a Will is one way of being sure that your money and possessions are going to be dealt with as you wish after your death. In some cases, if you do not leave a Will, the results can be disastrous for your family or close partners you leave behind – your house or money may not end up where you intended.

- Your Will can be as simple or as complicated as YOU want
- Protect your property and assets – safeguard them for the future
- Your spouse or partner will not always inherit your share of your house automatically
- Take care of your children and grandchildren's future
- Reduce the risk of losing your home to pay for long term care
- Minimise inheritance tax liability – you may be able to save a lot of money
- Leave a legacy to a relative, friend or charity
- What about your funeral? You can mention any special arrangements you would like
- Gives you peace of mind
- Let us tailor your Will to suit your precise wishes
- We will store your Will securely, free of charge
- Don't leave it too late!!

How much will it cost? Costs vary according to how complicated your financial affairs are. If you are making a simple Will, it can cost very little. Don't forget, it takes far longer and is far more expensive to wind up your Estate where you haven't made a Will.
